## Burley d'lite manual 2007

It took 10 years, but photographer Douglas Wright finally succeeded where others failed and built a camera that takes 3-D pictures. Now, Dimensional Visions Group Ltd., in Philadelphia, hopes to make 3-D ad inserts and posters with printer Quad/Graphics Inc., in Pewaukee, Wisc., which is evaluating the technology. If Quad likes what it sees, it will chip in \$6 million in new equipment. Photo Courtesy: Justin Page/DigitalVision/Getty Images

Vitamin D is important for maintaining a healthy body, primarily because it helps you fully maximize your body's absorption and utilization of calcium, an important mineral that we all need. When paired with calcium, vitamin D helps regulate bone remodeling and growth, ensuring healthy, strong bones. Vitamin D can also help protect older adults from osteoporosis, which occurs due to excess bone loss from aging. Furthermore, this nutrient boosts your immune system and reduces inflammation within your body, potentially warding off future medical conditions in the process. It also plays a vital role in cell growth, neuromuscular functions and protein encoding. Studies have shown that a regular, healthy vitamin D intake can also serve as an antidepressant and make people feel generally happier. But that's not all you'll want to know about vitamin D.Sources of Vitamin DVitamin D is naturally found in certain foods and now appears in many more foods that have been fortified with added nutrients. The best sources of naturally occurring vitamin D are oily fish such as salmon, tuna, cod, sardines and mackerel. Fish liver oils are another good source of vitamin D. Small amounts of the nutrient are present in beef liver, cheese, egg yolks and mushrooms. Photo Courtesy: Alexander Spatar/Moment/Getty Images

Commonly, vitamin D-fortified foods include whole milk, orange juice, margarine and breakfast cereals. It's important to look at the label and nutrition facts to verify that vitamin D is in a particular food you're considering. Because dairy products are often fortified with vitamin D, lactose intolerant or vegan individuals should keep an eye on their diets to ensure they get enough of the vitamin. Sun exposure is another method of naturally obtaining vitamin D, as our bodies can create their own vitamin D upon exposure to ultraviolet (UV) rays from the sun. However, it's difficult to gauge exactly how much sun exposure can generate sufficient vitamin D, as overexposure can be harmful, too. UV rays are also known to trigger free radicals, which can lead to skin cancer if left unchecked. It's been suggested that getting approximately 15 minutes of sun exposure between 10 a.m. and 3 p.m. at least twice a week to your face, arms, legs or back will help your body synthesize enough vitamin D. It's important to note that you can't cover the exposed area of your body with sunscreen if you choose to get vitamin D naturally. The SPF blocks UV rays and can hinder your body's ability to create vitamin D. If you're in the shade or behind a window, the rays will not get through. If the climate where you live is primarily cloudy, it's important to get your recommended amount of vitamin D via other means. Dietary supplements are also an excellent way of obtaining vitamin D. Supplements come in two forms: vitamin D3 (cholecalciferol), which is identical to the form your body makes when exposed to sunlight, and vitamin D2 (ergocalciferol), which differs slightly from D3 in its chemical side-chain structure. There's some evidence that vitamin D3 increases and maintains overall levels slightly better than vitamin D2.Side Effects of a Vitamin D DeficiencyVitamin D deficiency occurs when you don't adequately absorb the nutrient or when your kidneys can't convert the nutrient to its active form. This deficiency can result in medical conditions, two of which are called rickets and osteomalacia. Photo Courtesy: RealPeopleGroup/E+/Getty Images

Rickets, a disease characterized by a failure of bone tissues to get enough minerals, can result in abnormal, soft bones and skeletal deformities. It's most common in children. Fortunately, it isn't permanent, and kids can consume as few as 1 to 3 teaspoons of cod liver oil a day to reverse the condition. With the help of fortified foods today, rickets is almost obsolete in the United States. Osteomalacia, characterized by soft and weak bones, is usually present in adults. It's commonly treated with an intense regimen of vitamin D replacement under the care of a physician.Vitamin D and Other Health ConditionsVitamin D deficiency has been linked to cardiovascular disease, and people with lower levels of vitamin D appear to be at an increased risk of having a heart attack or stroke. However, the exact relationship isn't clear, and there appears to be no benefit to cardiovascular risk in taking a vitamin D supplement. Photo Courtesy: PixelsEffect/E+/Getty Images

Research is also ongoing to find if there's a link between vitamin D and multiple sclerosis (MS). It appears that vitamin D deficiency is linked to the development of MS, and people with MS and higher levels of vitamin D appear to have reduced disease activity. Low vitamin D has been linked to an increased risk of contracting respiratory illnesses such as influenza A. It appears that people with low vitamin D levels are at greater risk of severe novel coronavirus (COVID-19) infection. It's not clear yet if routine vitamin D supplementation would reduce this risk. Because vitamin D is a fat-soluble substance, it can stay in your body for several days. Thus, vitamin D poisoning is possible if you supplement too much vitamin D over a period of a few months. Symptoms of vitamin D overdose include dehydration, vomiting, decreased appetite, irritability, constipation and fatigue. If left unaddressed, vitamin D poisoning can lead to anorexia, over-calcification of the bones and internal organs, kidney stones and hypertension (high blood pressure). It's important to note that vitamin D poisoning usually only occurs with excessive intake of dietary supplements. It's highly unlikely to occur as a result of normal dietary intake and sun exposure.Daily Dosage RecommendationsThe recommended dietary allowances for vitamin D vary depending on your age and other health and life circumstances, such as pregnancy. For infants under 12 months, the recommended intake is 400 international units (IU) or 10 micrograms (mcg). For individuals under 70 years old, the recommended intake is 600IU (15mcg). For individuals over 70 years old, the intake increases to 800IU (20mcg). Photo Courtesy: katleho Seisa/E+/Getty Images

If you have a pre-existing medical condition or other medical concerns, it's best to talk to a healthcare professional about determining your recommended dietary allowance for vitamin D. This way, you can be sure the vitamin doesn't interact negatively with your condition or medication. IMPORTANT: IT IS VERY IMPORTANT FOR YOU TO FAMILIARIZE YOURSELF with your BURLEY breyding this entire manual before use. If you have any questions, pleasecontact YOUR AUTHORIZED BURLEY DEALER.IntroductionOnce you've done the initial assembly and read the safetyguidelines, you're ready to go! Before trailering, be sure you have the safety harness, seat belt, tow bar, trailer wheels and hitchsecurely attached.Note : Any reference to left or right is made in direction of travel,as if you were sitting inside the trailer, looking forward.WARNINGBicycling with a trailer, and bicycling in general, can be hazardous.Failure to observe any of the safety guidelines in this manual couldresult in accident and serious injury or death.1. Inspect and maintain your bicycle and trailer regularly. See "Safety Checklists".2. Because of the trailer's additional weight, a bicycle pulling atrailer is heavier and less responsive. Avoid sudden swerving,rocks and curbs. Experiment with the loaded trailer in anuncongested area until you become familiar with it.3. The minimum age for the cyclist is 16 years.4. The maximum trailer load limit for children and/or cargo is75 lbs (34 kg in Europe ) for single trailers and 100 lbs (40 kg in Europe) for double trailers. Securechildren and/or cargo in the center, forward of the axle andas low as possible.5. The trailer seat is intended for 1 or 2 children who are oldenough to wear helmets, sit upright and alone, and withadequate neck strength to hold their heads upright whiletrailering. A physician should evaluate anyone who is questionable developmental age for trailering.6. The maximum age for passengers is 6 years. Never carry achild whose sitting height (with helmet) is above the roll bar.7. Fasten the seat belt and shoulder harnesses so that eachchild is held securely. Seat a single child in the center. Periodically check the placement of the shoulder straps,especially sleeping children.8. BURLEY CHILD TRAILER OWNER'S INSTRUCTION AND SAFETY MANUALPage 48. Make sure you cannot put a finger into the wheel spokes.9. Inspect children not to bounce or lean, as a weight shiftcould cause the trailer to tip over.10. To protect children from flying debris, always use your cover.Open or close the window cover to keep your childrencomfortable. Never leave children unattended. Checkchildren frequently, especially during hot or cold weather.11. Observe recommended speeds: a maximum of 15 mph (24 km/h) on smooth, straight roads and 5 mph (8 km/h) or less when turning or on uneven roads. 12. Set your parking brake before removing your children or cargo.13. Never pull your trailer with a motorized vehicle.14. Cyclist and passengers must wear helmets.15. Only use factory-supplied wheels, with the tires inflatedto the pressure recommended on the tire side wall. Checkpressure before each use. Do not use higher-pressure orknobby tires.16. Clamp the hitch securely to the bicycle frame, and check for a tight attachment before each ride.17. Use the safety flag.18. Do not make alterations to the trailer. Contact yourAuthorized Burley Dealer for replacement of any damaged,worn-out or missing parts.19. Do not use your trailer on icy roads or when inclementweather makes cycling hazardous.20. The use of a mirror on your bicycle is recommended.21. For emergencies, breakdowns or flat tires, pull completely off the road and move your children to a safe area before doing repairs. |BURLEY CHILD TRAILER OWNER'S INSTRUCTION AND SAFETY MANUALWARNINGTrailers can tip over, causing damage to trailer and serious injury to passengers. Clamp the hitch securely to the bicycle frame, and check for a tight attachment before each ride.17. Use the safety flag.18. Do not make alterations to the trailer. Contact yourAuthorized Burley Dealer for replacement of any damaged,worn-out or missing parts.19. Do not use your trailer on icy roads or when inclementweather makes cycling hazardous.20. The use of a mirror on your bicycle is recommended.21. For emergencies, breakdowns or flat tires, pull completely off the road and move your children to a safe area before doing repairs. |BURLEY CHILD TRAILER OWNER'S INSTRUCTION AND SAFETY MANUALWARNINGTrailers can tip over, causing damage to trailer and serious injury to passengers. AVOID causes of tip over, especially:• Children leaning or bouncing• Hitting potholes, curbs, other road obstructions• Taking turns too fast• Sudden swerving• Improper WHEEL INSTALLATION OR TIRE INFLATION Tool Required for Assembly: Phillips screwdriver Opening and Closing Your TrailerRotate front tube upward and rear tube backward! they meet on plastic spacers. Figure 1 Rotate frame locks and snap onto rear tube. Figure 2 To close, unclip seat buckleson back of seat and reverseopening process.Note: To allowdownfolding, sidebattens in d'Liteand Tiger d'Liteare not attachedto sides.Figure 3 Using Seat Harness8 Hitching Trailer to Your Bicycle9 Safety Checklists9 Maintenance and Storage10 Solo Replacement Parts and Diagram 11 d'lite, Tiger d'lite and Encore Replacement Parts and Diagram 12 WarrantyPage 3Congratulations!Safety GuidelinesYour Burley® trailer is the leading choice of refined bicycle trailerowners worldwide. Every effort has been made to ensure yourpurchase is of top quality and proven design, ready to provideyou with many years and miles of happy, safe trailering.Please go to [www.burley.com](http://www.burley.com) or contact us atburley @ burley.com to register your warranty information. IMPORTANT: IT IS VERY IMPORTANT FOR YOU TO FAMILIARIZE YOURSELF with your BURLEY breyding this entire manual before use. If you have any questions, pleasecontact YOUR AUTHORIZED BURLEY DEALER.IntroductionOnce you've done the initial assembly and read the safetyguidelines, you're ready to go! Before trailering, be sure you have the safety harness, seat belt, tow bar, trailer wheels and hitchsecurely attached.Note : Any reference to left or right is made in direction of travel,as if you were sitting inside the trailer, looking forward.WARNINGBicycling with a trailer, and bicycling in general, can be hazardous.Failure to observe any of the safety guidelines in this manual couldresult in accident and serious injury or death.1. Inspect and maintain your bicycle and trailer regularly. See "Safety Checklists".2. Because of the trailer's additional weight, a bicycle pulling atrailer is heavier and less responsive. Avoid sudden swerving,rocks and curbs. Experiment with the loaded trailer in anuncongested area until you become familiar with it.3. The minimum age for the cyclist is 16 years.4. The maximum trailer load limit for children and/or cargo is75 lbs (34 kg in Europe ) for single trailers and 100 lbs (40 kg in Europe) for double trailers. Securechildren and/or cargo in the center, forward of the axle andas low as possible.5. The trailer seat is intended for 1 or 2 children who are oldenough to wear helmets, sit upright and alone, and withadequate neck strength to hold their heads upright whiletrailering. A physician should evaluate anyone who is questionable developmental age for trailering.6. The maximum age for passengers is 6 years. Never carry achild whose sitting height (with helmet) is above the roll bar.7. Fasten the seat belt and shoulder harnesses so that eachchild is held securely. Seat a single child in the center. Periodically check the placement of the shoulder straps,especially sleeping children.8. BURLEY CHILD TRAILER OWNER'S INSTRUCTION AND SAFETY MANUALPage 48. Make sure you cannot put a finger into the wheel spokes.9. Inspect children not to bounce or lean, as a weight shiftcould cause the trailer to tip over.10. To protect children from flying debris, always use your cover.Open or close the window cover to keep your childrencomfortable. Never leave children unattended. Checkchildren frequently, especially during hot or cold weather.11. Observe recommended speeds: a maximum of 15 mph (24 km/h) on smooth, straight roads and 5 mph (8 km/h) or less when turning or on uneven roads. 12. Set your parking brake before removing your children or cargo.13. Never pull your trailer with a motorized vehicle.14. Cyclist and passengers must wear helmets.15. Only use factory-supplied wheels, with the tires inflatedto the pressure recommended on the tire side wall. Checkpressure before each use. Do not use higher-pressure orknobby tires.16. Clamp the hitch securely to the bicycle frame, and check for a tight attachment before each ride.17. Use the safety flag.18. Do not make alterations to the trailer. Contact yourAuthorized Burley Dealer for replacement of any damaged,worn-out or missing parts.19. Do not use your trailer on icy roads or when inclementweather makes cycling hazardous.20. The use of a mirror on your bicycle is recommended.21.
